

**⚡ ENERGY-SAVING ⚡**

US Patent No. 7,387,654

# Kleen-Screen™

## A/C Coil Filter Kit

- ✓ **Saves Energy & Money**
- ✓ **Lowers Electric Bills**
- ✓ **Extends Condenser Life**
- ✓ **Reduces Service Calls**
- ✓ **Easy DIY Installation**
- ✓ **One Size, No Guessing!**

**With Easy  
Magnetic  
Mounting**

**◀ Wraps Around A/C Coils ▶**  
**Keeps Out Clogging Debris!**  
**Shields Against Hail Damage!**

**ENERGY-SAVING**  
**GREEN PRODUCT!**

# Kleen-Screen™

**Wrap-Around  
A/C Coil Filter Kit**

US Patent No. 7,387,654

## Easy Magnetic Mounting!

*Kleen-Screen™* features easy installation. It comes as a kit that is custom fitted to your condenser unit as you install it with only heavy duty scissors or shears.

## Clean Coils Save Energy!

The *Kleen-Screen™* a/c coil filter system will prevent over 95% of airborne debris from getting into your condenser coils. When coils become clogged, the air flow is restricted, reducing cooling efficiency, increasing wear, and requiring up to 30% more electricity to cool your home!

## Protects Your Investment!

*Kleen-Screen™* protects your condenser, stopping airborne fibers before they can get trapped and impacted in your coils. It pays for itself through energy savings, reduced wear on your system, and easy maintenance.

## Prevents Clogged Coils!

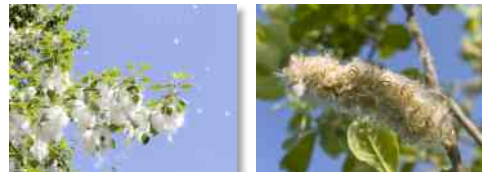

Studies Show Clogged Coils Make Your A/C Compressor Run Longer, Work Harder, Increasing Heat, Wear On Components and Using Up To 30% More Electricity\*

**Protects Coils Against  
Hail Damage, Too!**

## Kleen-Screen™ Keeps Out Airborne Debris Such As:

Dandelion, Milkweed, Cattails, and Other Weeds

Cottonwood and Poplar Tree Fluff and Leaves

Mimosa Tree Silk, Leaves, and Flower Petals

Dog, Cat and Other Animal Hair

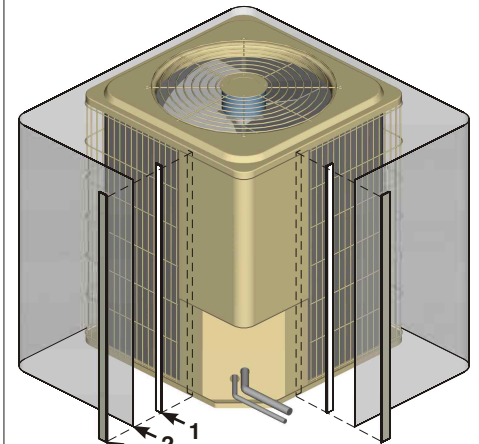

## Quick, Easy Cleaning!

The *Kleen-Screen™* filter mesh surface is anti-stick for quick and easy cleaning. Airborne debris that are collected by the *Kleen-Screen™* are easily removed with a soft brush or broom or they can be washed away with a gentle water spray.

### Kleen-Screen Kit Contents:

1. 39" Magnetic Tracks w/adhesive (2)
2. 39" x 120" Mesh Filter Screen (1 roll)
3. 39" Snap-On Cover Tracks (2)
4. 60" Nylon Security Straps w/Clips (2)

### Quick & Easy Installation:

1. Cut **magnetic tracks** to height and attach to the condenser. Peel the cover off the adhesive strips.
2. Wrap the **filter screen** around condenser. Press screen onto the adhesive strips. Trim off excess.
3. Cut **cover tracks** to length and snap them over the magnetic tracks locking the filter screen between.
4. Clip each end of the **security straps** onto the cover tracks. Adjust strap lengths and trim ends.
