

MODEL GL-1000

MODEL GL-1000 COMPRESSOR TERMINAL REPAIR KIT

The GL-1000 Gator-Lok is designed to repair burnt terminals on compressors up to 5 tons. Gator-Lok's unique design makes installation a snap and requires no special tools.

Each Gator-Lok Kit includes a set of three Gator-Loks (1 red, 1 blue and 1 black 10 gauges wire with 30-inch leads).

BENEFITS

- Restores power to compressor
- Eliminates need to replace compressor

FEATURES

- Body and inserts are made of high-quality brass
- 10 gauge wire leads UL rated
- Provides multiple points of contact on the burnt terminal once installed properly
- Easily installed in minutes
