

## Wi-Fi Video Monitoring

For home, baby, pets and business

With Dropcam you can access high-quality live or stored video of your home or business from your smartphone, tablet or computer. Receive alerts or just drop in on places, people and pets.

### 60-Second Setup

Connect to Wi-Fi using a computer or mobile device.

### Cloud Service

Watch streaming video, receive alerts and get new features.

### Premium HD Video

Get into the details with stunning high-def video.

## Features

### Secure Live Streaming

Stream video safely with bank-level security.

### Night Vision

Keep an eye on things, even in the dark.

### Zoom

Focus on a specific area with up to 8x zoom.

### Scheduling

Turn your camera on and off at specific times of the day or week.

### Mobile and Web Apps

Watch video via iOS, Android and web apps.

### Two-Way Talk

Talk directly to people and pets.

### Intelligent Alerts

Receive notifications for motion and sound.

### Location Awareness

Turn your camera on and off based on where you are.

## Cloud Recording (optional)

Cloud Recording automatically saves video on a rolling basis, so you can easily review footage from the past week or month.

- 7-Day / \$9.95 per month
- 30-Day / \$29.95 per month

### Review Footage

Access footage from the past week or month on your computer or mobile device.

### Save and Share Clips

Download clips to your computer. Share clips with family and friends.

### Customize Alerts

Filter motion alerts based on the activities you care about.
