

FLOAT SWITCH ALERT SYSTEM

sends instant alerts when an A/C drain line is clogged

Clogged drain lines are one of the top reasons for an emergency service call. Alert Labs provides a solution that lets you know about the issue before your customer calls you.

The first of its kind, this cellular-based **Float Switch Alert system** sends alerts to contractors' phones when the float switch is tripped or when water is detected in an air handler drain pan.

REDUCE SERVICE COSTS

PREVENT WATER DAMAGE

EMERGENCY ALERTS

EMERGENCY NOTIFICATIONS AND ALERTS

Instant alerts help contractors save time onsite and make truck rolls more efficient. They also help prevent water or mold damage in homes and increase customer satisfaction.

By knowing what is wrong with the A/C unit before sending a technician, contractors can dispatch the right technician, the first time. Homeowners save money by avoiding costly water damage repairs and can avoid A/C breakdowns. They also enjoy shorter A/C down time because diagnosing problems is faster.

SWITCH ON THE BENEFITS

Remotely identify clogged drain lines before you get an emergency call

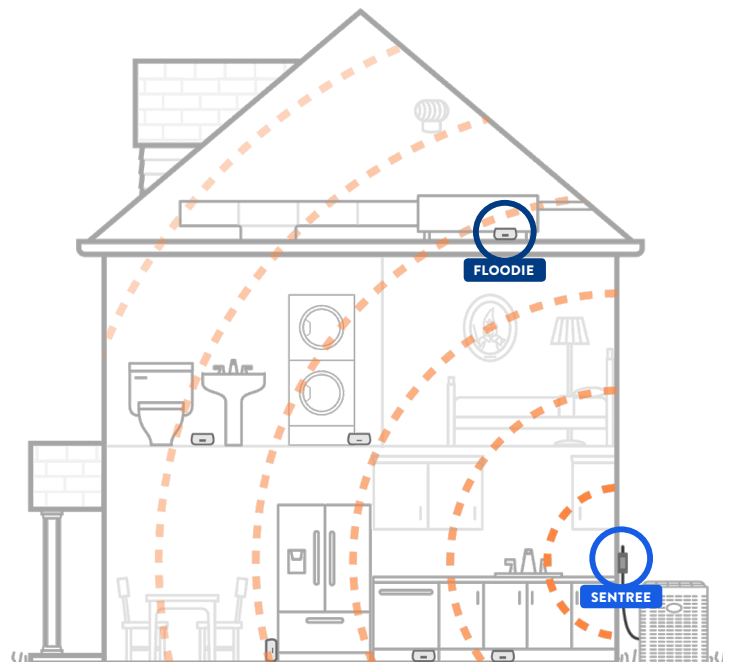

Premier customer service with float switch alerts

Cellular connected sensors means no need to use customers' WiFi network

5 - 10 minute install

HOW DOES THE FLOAT SWITCH CABLE WORK?

REQUIRED SENSORS

Sentree A/C Monitoring System

Sentree remotely monitors A/C systems, helping contractors respond faster with customer service and decrease emergency visits. Sentree lets contractors review minute-by-minute, temperature and pressure on liquid and vapor lines, current usage, superheat and subcool.

Floodie Flood Sensor

Floodie is a multi-purpose water leak detector that also prevents damage from temperature changes. Floodie sends alerts to your phone when the float switch is triggered or water is detected in the drain pan.

Float Switch Cable

Connects to Floodie to send instant alerts 24/7 on your phone when the float switch is triggered.

SPECIFICATIONS

Sentree

Power Requirements	240 VAC, single phase, 60 Hz
Consumption	12W max
Water Resistance	IP67 weather sealed
Sensors	Temperature, Current, Pressure
Dimensions	6.5 x 4.2 x 1.6 in (164 x 107 x 40 mm)
Weight	8 oz (220 g)
Warranty	1 year limited warranty
Miscellaneous	Sentree works with most 1-5 ton residential A/C units and heat pumps

Floodie

Power Requirements	2 x AA batteries (included)
Battery	Battery lasts up to five years
Connectivity	Automatic to an Alert Labs cellular sensor (up to 1000 ft / 300 m range)
Water Resistance	IP67, waterproof & submersible
Temperature	-4F to 122F (-20C to 50C) internal sensor -67F to 257F (-55C to 125C) with accessory temperate cable
Temperature Alerts	Custom maximum and minimum range
Orientation	Horizontal or vertical placement
Audible Alarm	Yes
Warranty	1 year limited warranty

Float Switch Cable

Length	8 in (20 cm)
Compatibility	Can be used with most float switch brands
Miscellaneous	Ships in 5-pack quantity
