

American Standard Thermostats

PRECISE COMFORT CONTROL
AT YOUR FINGERTIPS.

American Standard[®]
HEATING & AIR CONDITIONING

COMFORT AND EFFICIENCY WITH JUST A TOUCH.

It's a comfortable feeling knowing that you're in control. With American Standard Heating & Air Conditioning thermostats, you can set precisely the degree of home comfort you prefer and the level of energy efficiency you require. American Standard has a hard-working, reliable thermostat to suit every system and any budget, and each one puts control of your home's comfort at your fingertips.

Touchscreen Programmable

Gold 900

With AccuLink™ communicating capabilities and dual fuel compatibility, the Gold 900 offers powerful, versatile control. Other features dedicated to your comfort include 7 day programmability, four heating and two cooling stages, a humidity sensor and automated filter reminders.

(Note: Not compatible with Variable Speed Systems)

Gold 803

The Gold 803 is focused on your comfort, and features a humidity sensor, effortless 7 day programming and automatic changeover from heating to cooling.

Programmable

Silver 602

With the ability to control up to three heating and two cooling stages, the easily-programmed Silver 602 provides weekday/weekend scheduling and precise temperature control.

Non-programmable

Silver 402

The Silver 402 keeps you comfortable with up to three heating and two cooling stages. It also offers air filter reminders, a backlit display and keys, and automatic changeover between heating and cooling.

Silver 200

A clear, easy-to-read display and backlit keys make the Silver 200 a smart choice. For your convenience, it includes an energy savings mode and automatic changeover between heating and cooling.

American Standard thermostats help you manage your energy consumption for maximum efficiency with an energy savings schedule.

Take your home's comfort and efficiency to a new level.

At American Standard Heating & Air Conditioning, we've always believed comfort comes in many forms. And now, we're taking it a step further. With American Standard's innovative AccuLink™ Platinum 950, AccuLink™ Platinum 850, Gold 824 and Silver 624 Controls, you can set your home to your ideal temperature from most web-enabled devices, like your smartphone. All so you can connect with your home and family, even when you're not at home, with Nexia™ Home Intelligence. For more information ask your local independent American Standard Dealer about Connected Controls and Nexia.

Our dealers will put you in your comfort zone.

Your independent American Standard Heating & Air Conditioning dealer is a highly trained professional with years of experience who'll work with you every step of the way in choosing the system that's right for you – from walking you through the entire purchasing process to conducting an in-depth analysis of your home and your comfort needs. Based on that information, your dealer will recommend a system that works best for your home. After all, the more efficient the system, the more comfortable you'll be.
