

## SPECIFICATION SHEET MODEL 8191 & 8192 VENTILATOR WITH DEHUMIDIFICATION

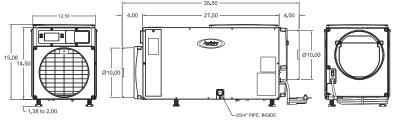

| PRODUCT SPECIFICATIONS AND SIZING SUMMARY              |                                   |                 |
|--------------------------------------------------------|-----------------------------------|-----------------|
| Model                                                  | 8191                              | 8192            |
| Nominal Ventilation Airflow<br>(CFM)                   | 100 CFM                           | 200 CFM         |
| Capacity <sup>(1)</sup> pints/day                      | 70 ppd                            | 95 ppd          |
| Energy Factor (1)                                      | 1.91 L/kW-h                       | 2.2 L/kW-h      |
| Energy Star Qualified                                  | Yes                               | No              |
| Air flow @ various external static pressure - dry coil |                                   |                 |
| 0.0" w.c.                                              | 160 CFM                           | 265 CFM         |
| 0.2" w.c.                                              | 120 CFM                           | 230 CFM         |
| 0.4" w.c.                                              | 70 CFM                            | 200 CFM         |
| Voltage, Phase, Frequency                              | 120VAC, 1, 60 Hz                  |                 |
| Current Draw (1)                                       | 6.3 Amps                          | 8.0 Amps        |
| Sound Level                                            | 47 dBA ducted                     | - 54 dBA ducted |
|                                                        | 51 dBA unducted                   |                 |
| Dimensions - cabinet only                              |                                   |                 |
| Width                                                  | 12.5″                             | 12.5″           |
| Height <sup>(2)</sup>                                  | 14.5″                             | 14.5″           |
| Length                                                 | 25″                               | 27.5″           |
| Weight                                                 | 70 lbs                            | 75 lbs          |
| Operating Condition                                    |                                   |                 |
| Inlet Air Operating Conditions                         | 50°F - 104°F, 40°F dew point min. |                 |
| Ambient/Ventilation                                    | 40°F - 140°F, 0% - 99% RH         |                 |

<sup>(1)</sup> Rated capacity and Energy Factor test done and current draw measure in accordance with AHAM DH-1 2008 at 80°F/60%RH inlet air at 0.0 ESP.
<sup>(2)</sup> Height does not include adjustable feet or casters. The width excludes the filter doors, and length excludes the duct collars.

| PRODUCT SPECIFICATIONS    |                                         |  |
|---------------------------|-----------------------------------------|--|
| Control                   | Built-in digital control with display   |  |
| Control Mounting Option   | Field interchangeable from top to front |  |
| Cabinet Insulation        | 1/2" EPS                                |  |
| Air Discharge Orientation | Top or end air discharge                |  |
| Inlet/Outlet Duct Collars | 10" round                               |  |
| Back Damper at Outlet     | Included                                |  |
| Air Filter                | Washable MERV 8                         |  |
| Refridgeration            | R-410A                                  |  |
| Coil Corrosion Resistance | E-coated coil                           |  |
| 8' Power Cord Type        | Plug type                               |  |
| Drain Connection          | 3/4" PVC adapters (1)                   |  |
| Warranty                  | 5 years                                 |  |

 $^{\scriptscriptstyle (1)}$  Thread adapter and barbed fitting for clear drain tubing included.

## **FEATURES**

- Removes moisture from outdoor air before it enters the live space
- Unit is designed, when properly installed, to achieve ASHRAE Standard 62.2 2010
- Control is integrated into the unit
- High and Low Temperature Limit Lock-outs
- Simple plug-in installation
- Installation temperature range up to 140°

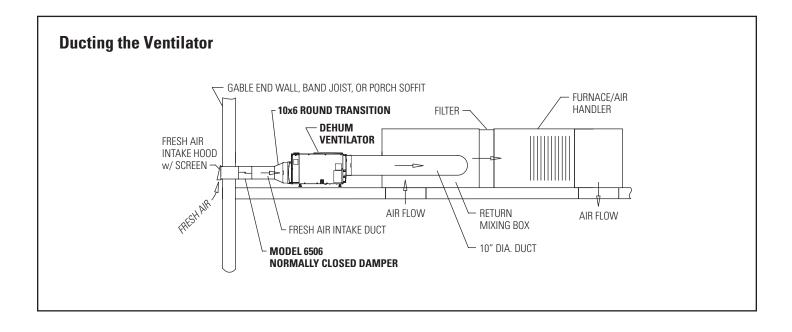

## **BENEFITS**

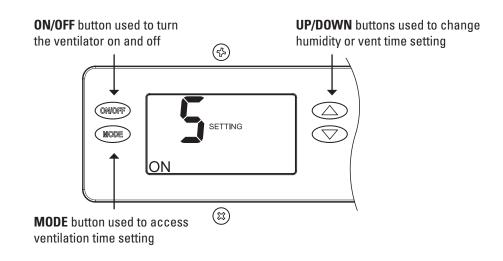

- Helps control RH in the home during periods when the air conditioning system does not run long enough to remove sufficient moisture. If air conditioner can satisfy RH requirements the Aprilaire unit's compressor shuts off
- Optimize energy savings by locking out ventilation during hottest/ coldest times of the day
- Improves indoor air quality
- Installation labor reduced, requires only a power outlet and 24 volt wiring to HVAC system

## When properly installed and set, the Aprilaire Model 8191 and Model 8192 Ventilators with Dehumidification will meet the mechanical ventilation requirements of:

- Energy Star Certified Homes, Version 3
- EPA Indoor airPLUS, Version 1
- 2012 International Residential Code (IRC)
- 2012 International Energy Conservation Code (IECC) 8191 Only

APRILAIRE RESERVES THE RIGHT TO CHANGE SPECIFICATIONS WITHOUT NOTICE.
