

Product Specifications

DUCT FREE SPLIT SYSTEM HIGH WALL, R-410A

Efficient 13 SEER Air Conditioners and
7.7 HSPF Heat Pumps

¾ THRU 2 TONS

- Rotary compressors in all models
- Wireless remote for enhanced functionality
- Programmable time/temperature settings
- Sleep mode
- Diagnostics
- Low ambient cooling feature allows safe cooling mode operation down to -20° F outdoor ambient*
- Auto-Swing louvers
- Compressor lockout protection
- 115 volt on ¾ and 1 ton models
- Factory charged with R-410A refrigerant
- 5 year limited compressor, 5 year limited coil and parts warranties

Rated in accordance with ARI Standard 210 and/or 240. Certification applies only when used with proper components as listed with ARI.

*“A” series models (1½–2 ton) offer low ambient kit as an accessory

Required Clearances

Fig. 1 – DFF4(A/H)H/DFC4(A/H)3 09–12
Parts List and Clearances

Note:

- If the outdoor unit is higher than the indoor unit, prevent rain from flowing into the indoor unit along the connection pipe by making a downward arc in the connection pipe before it enters the wall to the indoor unit. This will ensure that rain will drip from the connection pipe before it enters the wall.
- The illustration above is only a sketch. Different models may be slightly different.

ACCESSORIES		
Part Number	Description	Used On Model Size
NADA001DK	Condensate Pump	9, 12
NADA002DK	Condensate Pump	18, 24
NADA002LA	Low Ambient Kit *	ALL
NADA004CH	Crankcase Heater (120V)	9, 12
NADA003CH	Crankcase Heater (240V)	18, 24
1173540	Isolation Relay (120V) *	9, 12
1174662	Isolation Relay (240V) *	18, 24

* When Low Ambient Kit is used with Heat Pump, additional Isolation Relay is required.
