

NEW

Convenient 2-Way Temp

**Folding ROD Thermometer
with 8:1 IR (Infrared)**

Two Ways to Measure Temperature

- Accurately target surfaces with infrared 8:1 field of view
- View in-duct temps hands-free with temperature ROD and hanging hook

Easy to Use

- Thermistor ROD with sharp, narrow tip for insertion into duct work
- Display flips (IR/ROD) for easy viewing
- Clips to your pocket or bag
- Max/min/Hold
- Backlight

Delta-T

- Quickly calculates T1 – T2
- T1 – T2 works across both IR and ROD modes

Test Tools HVACR Pros Trust

In-Duct, Register, and Ambient Temps

Flipping Display

The display flips depending on the mode. In ROD mode, the display can be seen when hanging.

Hanging Hook

Hands Free In-Duct Temps

Hang the SPK3 to your registers or ducts. The **hanging hook** secures your SPK3 for easy hands free temperature measurements even on plastic vents.

Pocket Sized

Clip to your front shirt pocket for easy storage, ready to use in the field.
