Features
Performance and Efficiency
- Super Sized Evaporator Coil (Patent Pending)
- 100% Full Flow Titanium Turbo Heat Exchanger
- Ultra-Quiet 825rpm Fan Motor
- Thermal Expansion Valve
- Chill Buster (optional)

Benefits
- Lifetime warranty against corrosion
- 100% Titanium - Not Titanium Alloy
- Turbo design for maximum heat transfer into your pool
- All 2” plumbing to maintain efficient full water flow
- Ultra-Quiet and efficient operation only 56db
- Refrigerant regulated for maximum efficiency in all types of weather
- Reverse Gas defrost allows heating in conditions below freezing
- Units can also cool the pool

Intelligent Control and Design
- Sensible Automation
- Solar Ready Differential Control
- Advanced Diagnostic LCD Display
- Even Heat
- Triple Thermostat
- Durable ABS Cabinet

State of the Art Manufacturing
- Helium (He) Testing
- Mass Flow Charging
- Interlocked testing Stations
- Final Run Test

Virtually eliminates refrigerant loss, ensuring optimized performance Factory detection 100 times more accurate than our competitors

Computerized refrigerant filling with no human error Accurate to 1/100th of an ounce ensuring each unit is “Perfect”

Computerized quality control testing process can’t be bypassed

Tests every component, in every unit, every time A “Perfect” unit every time for the ultimate piece of mind
