

**More Wi-Fi options, more ways to serve connected homeowners.**

# Get Connected

Meet the broadest range of Wi-Fi options in the industry. Connectivity isn't a trend – it's a way of life. And home comfort is no exception. Sales of connected thermostats are expected to quadruple in the next five years. That's a business opportunity you can't afford to miss!

## Wi-Fi 9000

### Color Touchscreen Thermostat

- Tool-free wiring, manual-free install and setup
- On-screen Wi-Fi connection process (no separate device needed)
- Contemporary design with customizable display color

## Wi-Fi VisionPRO® 8000

### Touchscreen Thermostat

- Plain language setup, no manual needed
- On-screen Wi-Fi connection process (no separate device needed)
- Relay for IAQ Control; no remote sensor required

## Wi-Fi FocusPRO®

### Thermostat

- Installs with the ease of standard FocusPRO models
- Simple connectivity with reliable performance you can trust
- 7-day programmable setting helps lower energy costs

7-day programmable

Universal application\*

Precise control

Real-time clock

5-year warranty

\*Honeywell Wi-Fi thermostats work with multiple system types, including heat pump, gas, oil, and electric.

# Stay Connected

With Honeywell's Total Connect Comfort services, your customers can:

- View and change their HVAC system settings
- Get temperature alerts via email or free app
- Access multiple locations if more than one system is connected

## Go green. Save some green.

Honeywell Wi-Fi programmable thermostats may be eligible for money-saving energy rebates in the U.S. and Canada – giving your customers even more reasons to go wireless. Visit [forwardthinking.honeywell.com/rebates](http://forwardthinking.honeywell.com/rebates) to see available rebates in your area.

## Remote comfort control? It's a no-brainer.

With over 70% of U.S. households already using Wi-Fi connectivity, a Honeywell Wi-Fi thermostat could be the easiest sale you make.

Wi-Fi Thermostat Portfolio		
THERMOSTAT	PART NUMBER	FEATURES
Wi-Fi 9000	TH9320WF5003	Color touchscreen
Wi-Fi VisionPRO® 8000	TH8321WF1001	Touchscreen with relay for IAQ control
Wi-Fi FocusPRO®	TH6320WF1005	Push button

## Wiresaver Wiring Module

THP9045A1023

All Honeywell Wi-Fi thermostats require 24V common power due to the onboard Wi-Fi antenna. Many applications were originally installed with four wires available for the thermostat. For these applications the Honeywell THP9045A1023 WireSaver allows for four wire installation. This simple device allows for the fan and compressor to be controlled through a single wire through the “K” terminal so that four wire installation is possible with any Honeywell Wi-Fi thermostat.
