# Klenk® Offset Snips

**MOST DURABLE + EASIEST CUTTING + MOST COMFORTABLE**

**MADE IN USA**

**Here's what our Customers say:**

★★★★★ "I love my Klenks. I bought a pair about five years ago and Klenk snips are the best of the bunch. They cut more accurately and with less distortion than other brands. I've used them on copper, silver, pewter, zinc, and mild steel. I can cut closer to the scribe line on precious metals with Klenks with minimal distortion."

★★★★★ "I have had many different types of aviation snips in my 30 years of HVAC trade, but I have never used a pair of snips like Klenks, excellent American made product."

Model #	10½" Klenk Offset Aviation Snips	Weight
MA75200	1⅝" Left/straight cut, parallel handles	1.060 lbs.
MA75210	1⅝" Right/straight cut, parallel handles	1.060 lbs.

## Klenk® Bulldog Snips

- Short bite, serrated blades, and long leverage for heavier gauge metal
- Hardened blades and bolt
- Ergonomic handle and comfortable design
- Ideal for "S" slips and drives
- Works well on t-bar in drop ceilings and extruded aluminum in doors and window frames

MODEL #	9" KLENK BULLDOG SNIPS	WEIGHT
MA74500	Klenk Bulldog Snips, 9" long, ¾" cut	0.760 lbs.
