

Specifications

8850800

System Hub 2.0

Application

The LeakSmart® hub is the central point of communication. The LeakSmart System will continue to work 24/7 even if Internet & power are down ensuring that you will be protected 100% all of the time. If a water leak is detected in your home, the LeakSmart Hub – or another compatible smart home system hub – receives the signals from the leak sensors placed in your home and directs the LeakSmart Valve to immediately shut off your home's water supply to eliminate the threat of water damage.

Features

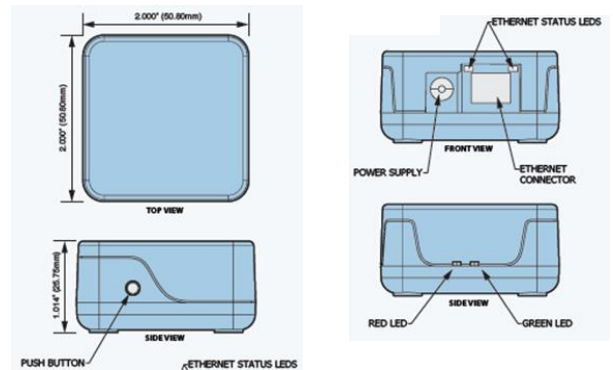

- Supports Zigbee Networking
- Ethernet LAN connection
- AC power
- 2 LED status lights
- 5-year manufacturer's warranty

Product Specifications

- Frequency: 2405 to 2480 MHz
- Operating Voltage: 110 to 240 VAC
- Output Transmit Power: +20 dBm
- Operating Temperature: -30°C to 70°C
- RoHS Compliant
- 6' ethernet cable
- 6' power adapter

Materials

- Hub: High performance engineered polymer
