METALFLEX® V350-U AIR DUCT

DESCRIPTION

- Non-insulated supply/return flexible aluminum air duct. Designed for use as a non-insulated supply/return air duct in return plenum ceilings or other areas with demanding safety requirements.
- This product is UL Listed as a Class 0 Air Duct in accordance with the NFPA 90a & 90b. It is non-insulated, high pressure, flexible aluminum "Metalflex" air duct. Our design allows for better stretching and bending characteristics. This helps eliminate flattening on the outside radius of a bend thus preventing restricted airflow.
- Crimped end slides into plain end, ensuring smooth connections
