

FORGED SEAMER TONGS

Strongest of all Seamers

Our hot drop-forged seamer tong models are of traditional design. They are the strongest and most durable of our bending and folding tool offerings. Throat depth graduations are forged into the jaws in 1/4" (6.4mm) increments for user accuracy. Kush'n-Kote® handle grips provide a secure grip and comfort the user's hand.

SIGHT GAUGES

Featured on all models for proper alignment.

KUSH'N-KOTE® COMFORT GRIPS

Comfort the User's hand.
