

Feature Sheet

Residential Water Heaters | ProtectionPlus

The new degree of comfort.®

ProtectionPlus® – A 4-year limited warranty extension kit to be used for new Rheem® water heater installations

Warranty Extension

- 6-Year limited tank warranty becomes 10-year
- 8-Year limited tank warranty becomes 12-year
- For use on all Rheem residential models except Manufactured Housing, Marathon, Point-of-Use, Hybrid Heat Pump, Table Top, Condensing Power Direct Vent, Tankless or Thermal Expansion Tanks

Installation Instructions

1. Remove any factory installed water connections (nipples) from the hot water outlet.
Please note that some water heaters are equipped with an internal heat trap in the hot water outlet which must be removed prior to installing the combination anode/hot water nipple.
2. Install the combination anode/hot water nipple into the hot water outlet coupling of the water heater.
3. Install the cold water nipple (4") into the cold water inlet coupling of the water heater.
4. Place ProtectionPlus® label next to warning label on the front of the water heater.
(The bottom portion of this label will be used to validate warranty in the event of tank failure.) **DO NOT** place over any of the existing labels.
5. Follow all installation instructions as outlined in water heater's "Use and Care Manual".
6. Replace factory provided "Certificate of Limited Warranty" with this ProtectionPlus® "Certificate of Limited Warranty".

*Some models require a 3/4" to 1" adaptor.

The Kit Contains

- High quality magnesium anode rod with plastic lined nipple (hot side)
- Plastic lined nipple (cold side)
- Brass 3/4" to 1" adaptor*
- Warranty certificate with instructions
- ProtectionPlus® label to be placed on water heater
- Sold only in packages of 6

Advantages

- Provides additional protection against tank corrosion
- Double product offering without doubling tank inventory

ProtectionPlus® Warranty Extension Kit
