

Heat Pump

Value Series | Model: 13PJL 13 SEER Heat Pump

When you look at the benefits provided, you'll see that you can depend on Rheem Heat Pumps to deliver the quality and value you expect.

- Durability for Years to Come**
 While blending effortlessly into your home's landscape, the attractive, low-profile, louvered, *Neutra Green™* steel cabinet provides style and protection from yard hazards and weather extremes. With this durable construction, you can count on years of ease when you depend on Rheem for your home comfort needs.
- Tranquility of Quiet Operation**
 Air is discharged through a unique grille pattern located on top of the unit, and is directed upward and away from bushes and shrubs. This discharge pattern allows for quiet fan operation and low noise levels, which *you and your neighbors* will appreciate.
- Simple, Low Cost System Maintenance**
 Contractor-preferred access, to the internal components of the unit, is easily obtained by removing one service panel or the top grille, keeping service time and expense to an absolute minimum. This enhanced serviceability makes caring for your system as easy as 1-2-3.
- Efficient Performance Maximizes Savings & Comfort**
 The 13PJL model features cooling efficiencies up to 14 SEER/12.25 EER, and heating efficiencies up to 8.2 HSPF. The higher the SEER level, the greater your energy savings will be over time. When compared to lower SEER rated models, choosing a higher efficiency model will pay off with years of savings on your monthly energy bills.
- Eco-Friendly Product R-410A**
 At Rheem, *green* is much more than the patented *Neutra Green™* color of our products. Our eco-friendly heat pumps meet or exceed world environmental standards by utilizing Refrigerant 410A that does not contribute to ozone depletion in any way.
- Guaranteed Dependability**
 The 13 SEER model features a ten-year conditional parts and compressor warranty (Registration Required). You can relax and simply enjoy the peace of mind you deserve with the worry-free operation of your Rheem Heat Pump.
