

CONDENSING UNITS

RAPL- JEZ

14 SEER Models

Efficiencies up to 16.00 SEER

Nominal Sizes 1½ to 5 Tons

[5.28 kW] to [17.6 kW]

Seven Models

Cooling Capacities

18,200 to 59,500 BTU/HR

[5.33 kW] to [17.44 kW]

RANL- JEZ

13 SEER Models

Nominal Sizes 2 to 5 Tons

[7.03 kW] to [17.6 kW]

Six Models

Cooling Capacities

23,200 to 62,000 BTU/HR

[6.80 kW] to [18.17 kW]

Equipped with *Comfort Control System™*

- Increased Reliability
- On-Board Diagnostics
- Fault Recall
- *Active Protection™*

14 SEER MODELS &
13 SEER MODELS
(IN CERTAIN MATCHED SYSTEMS)

FEATURES & BENEFITS OF THE *COMFORT CONTROL SYSTEM™*

- The Rheem exclusive 7-Segment LED Display easily shows system operating status codes and diagnostic codes.

- A Sealed Switch replaces the standard contactor and features optical control and latching mechanism. The sealed switch prevents infiltration of insects and dust. A minimal switching arc, by the optical control, offers greater reliability. The latching mechanism consumes less power while reducing chatter.

- The Status Indication and System Diagnostics feature thermostat communication capability, built-in diagnostics, high & low voltage monitoring and high & low pressure switch monitoring. The thermostat communication capability alerts the homeowner to any necessary service requirements. Faster, more accurate service is provided by the built-in diagnostics, by providing the HVAC professional with dependable information. With the high and low voltage monitoring feature, the control provides alerts for out-of-range conditions. In addition, high and low pressure-switch monitoring prevents the system from operating outside of its normal parameters.

STANDARD FEATURES

RAPL- JEZ/RANL- JEZ Condensing Units

1. This unit contains a special scroll compressor that is designed specifically to operate with R-410A refrigerants and polyolester (POE) oils. The compressor is hermetically sealed and incorporates internal high temperature motor overload protection and durable insulation on the motor windings. It is externally mounted on rubber grommets to reduce vibration and noise.
2. Scroll compressor is hermetically sealed and incorporates internal high temperature motor overload protection, and durable insulation on the motor windings. It is externally mounted on rubber grommets to reduce vibration and noise.
3. Compressors have an internal pressure relief assembly to protect against excessive pressure differential.
4. All refrigerant connections are on the exterior of the unit, located close to the ground for neat appearing installations.
5. Cabinet is constructed of powder painted galvanized steel. The full wrap-around louvered grille protects the coil from damage.
6. Enhanced compressor sound blanket is standard.
7. Copper tube—aluminum fin coils are used on all models.
8. The control box is located in the top corner of the cabinet providing for easy access through a service panel.
9. Service valves are standard on all models.
10. Field connections for power and control wiring are kept separate.
11. Every unit is factory charged and run-tested.
12. Separate compressor compartment for easy service access.
13. Drawn, painted base pan for extra corrosion resistance and sound reduction.
14. The **RAPL- JEZ** and **RANL- JEZ** have a 10 year limited compressor warranty, plus a 5 year conditional unit replacement warranty.
15. **Hard Start Kits**—Standard on all JEZ models.
16. Control Box Cover.
17. Automatic reset high and low pressure controls are standard on all JEZ models.
18. Liquid line filter drier is standard on all models (shipped – not installed).

- The fault recall feature will allow for the last six fault-codes to be displayed, and will retain these codes even if power failure occurs.

- Built-in short-cycle protection allows the compressor to restart easily without oil removal.

- A 30-second minimum run-time for every compressor call enables the oil return to the compressor.

- **Active Protection** monitors the system to prevent nuisance lockouts and prevents compressor operation when potentially harmful conditions are detected.

- The compressor and fan are controlled independently, which reduces the starting load and light dimming.

- A push-button is offered to operate the compressor and fan for 5 seconds to allow for an operation check.

- In order to save time and money, replacement automotive fuses can be utilized instead of replacing the entire control board.

Problem-Solving Accuracy

SCROLL® COMPRESSOR

The scroll compressor is the key to efficiency for this Rheem model. It's the latest in high-efficiency compressor technology. The advanced scroll compressor offers low noise and vibration characteristics and features tolerance to liquid refrigerant and system contamination. The scroll compressor also has low start torque, eliminating start problems in the field. And its unique design enables the RAPL- JEZ and RANL- JEZ condensing units to perform efficiently, quietly and dependably.

All controls and compressor are accessible for servicing by removal of the service panel.

Field Installed Accessories

- Low Ambient Control**—Cycles outdoor fan to maintain adequate condensing pressures assuring liquid refrigerant flow to the coil. Allows indoor cooling with outdoor temperatures down to 0°F [-17.8°C]. (Model No. RXAD-A04)
It is recommended that this control be installed in units to be operated at outdoor ambient temperatures under 45°F [7°C].

BEFORE PURCHASING THIS APPLIANCE, READ IMPORTANT ENERGY COST AND EFFICIENCY INFORMATION AVAILABLE FROM YOUR RETAILER.

GENERAL TERMS OF LIMITED WARRANTY

Rheem will furnish a replacement for any part of this product which fails in normal use and service within the applicable period stated, in accordance with the terms of the limited warranty.

For Complete Details of the Limited Warranty, Including Applicable Terms and Conditions, See Your Local Installer or Contact the Manufacturer for a Copy.

Compressor Ten (10) Years

*Any Other Part Five (5) Years

*This five year limited warranty is applicable only to single-phase products installed in residential applications on or after January 1, 2001.

RAPL- JEZ/RANL- JEZ Conditional Replacement

Warranty: Rheem will provide a replacement model (if an exact replacement is not available, an equivalent product will be provided) to the original purchaser if the compressor fails within 5 years (providing the unit is installed with a new Rheem Air Handler OR Rheem Indoor Coil with a Rheem Gas Furnace, and is properly matched as specified by Rheem and/or listed in the Air Conditioning Institute (ARI) published rating, and if additional conditions are satisfied. See product warranty card for additional information.

Before proceeding with installation, refer to installation instructions packaged with each model, as well as complying with all Federal, State, Provincial, and Local codes, regulations, and practices.
