A Look Inside

(Upflow Model Shown)

Features & Benefits:

- 1. Adjustment-Free In-Shot Burners.** The natural (or optional LP) gas is ignited by the direct spark ignition at the in-shot burners. The in-shot burner's shutter-free design requires no adjustments to regulate the air/gas mixture.
- 2. Efficient Primary & Secondary Heat Exchanger.** The Rheem *Classic*® 90 Plus® heat exchanger is renowned for its dependability and efficiency. It's constructed for maximum resistance to rust and corrosion. And it's backed by a limited lifetime warranty.
- 3. Slide-Out Blower.** Thanks to adjustable controls for the blower, your technician can precisely match airflow to the specific comfort requirements of your home.
- 4. Easy To Access and Clean Filter.** The Rheem *Classic*® 90 Plus® is equipped with a permanent, washable filter that's easy to access and clean. You won't ever have to deal with the hassle and expense of replacement filters.
- 5. Efficient Direct Spark Ignition.** Direct spark ignition is an extremely dependable and efficient way to light the burner. And it eliminates the need for a standing pilot. For added safety, the remote flame sensor constantly monitors the burner flame to ensure it is operating as it should.
- 6. Slow-Open Gas Valve.** The redundant gas valve is a 24-volt slow-opening valve that delivers gas in a regulated flow to the patented "in-shot" burners.
- 7. Quiet Draft Inducer.** This draft inducer, which was specifically designed for the 90 Plus® upflow gas furnace, quietly provides air for combustion while simultaneously venting outdoors the products of combustion from the furnace heat exchanger.
- 8. Integrated Furnace Control with Standardized On-Board Diagnostics.** The "Brain" of the Rheem *Classic*® 90 Plus® is the Integrated Furnace Control (IFC) which directs all activities of major furnace components. The control features low-speed continuous fan operation and accessory terminals.

Limited Warranty Information

Rheem supports its equipment with strong warranties and dependable, professional service. That's why Rheem backs the *Classic*® 90 Plus® upflow gas furnace with a generous Limited Lifetime Warranty on the Heat Exchanger. All other parts have a Conditional Parts Warranty of ten years (Registration Required).

Protection You Can Count On

While your Rheem equipment is incredibly dependable and covered by an outstanding warranty, you can extend your warranty coverage with Protection Plus® extended service protection. Then you can relax and enjoy the comfort of your Rheem upflow gas furnace – without worrying about the cost of parts or labor for unexpected repairs. And when Protection Plus is purchased in conjunction with your contractor's maintenance program, you can enjoy the peace of mind that your equipment will be both maintained and repaired – as needed and without additional expense. Ask your contractor about the variety of Protection Plus plans now available. For more information, call 1-877-276-4294 or visit www.protectionplusonline.com.

KwikComfort® Financing

Ask your Rheem contractor about **KwikComfort® Financing**, the easy and convenient way to finance everything associated with your Rheem equipment – your original equipment, all subsequent service, Protection Plus® extended service protection, and even the comfort options you might choose to add later.
